OWNER/BUILDER AFFIDAVIT
Disclosure Statement F.S. 489 Part II
(Electrical)

State law requires electrical contracting to be done by licensed electrical contractors. You have applied for a permit under an exemption to that law. The exemption allows you, as a property owner, to act as your own electrical contractor even though you do not have a license. You may install electrical wiring for a farm outbuilding or a single-family or duplex residence. You may install electrical wiring in a commercial building the aggregate construction costs of which are under \$75,000. The home or building must be for your own use and occupancy. It may not be built for sale or lease. If you sell or lease more than one building you have wired yourself within one (1) year after the construction is complete, the law will presume that you built it for sale or lease, which is a violation of this exemption. You may not hire an unlicensed person as your contractor. Your construction shall be done according to building codes and zoning regulations. It is your responsibility to make sure that people employed by you have licenses required by state law and by county or municipal licensing ordinances.

.....

Execution of this statement is prima facie evidence in a Court of law or other City board that under the provisions of the above disclosure statement, you assume full responsibility as an Owner/Builder Contractor and will personally supervise or do all work on the permitted structure as allowed by law. I understand that I may not hire any unlicensed person to function as my contractor in any capacity.
