Re: NFPA Standard 1142 Application

Date: February 2, 2006

1. NFPA Standard 1142 as adopted by the State of Florida will be reviewed for application to each project.
2. NFPA 1 as adopted by Florida will also be reviewed for each project; the more restrictive code will be applied.
3. In the current version of the Florida Fire Prevention Code NFPA 1141 is not adopted by reference and the City can no longer apply the standard to projects.
4. NFPA 101, Life Safety Code will be applied as required to projects meeting the requirements for application.
